

IMPORT TRACKING

Access

Shapiro 360 is accessible via <https://shapiro360.shapiro.com/> and by entering a valid-secure user name and password. All first time users will be prompted to review and accept Shapiro's Terms and Conditions. The 360 application cannot be used unless (and until) these Terms and Conditions are accepted.

You'll find our system is very intuitive! To get started simply hover your mouse over any of the available categories on the home page and select from the drop-down items available.

Please note dependent upon your login and permissions you may not have access or visibility to all features depicted below.

Home

Hover mouse over any category to access drop down items.

Search Files

There are numerous ways to search for import shipments; you can search all, or if you prefer narrow the search by entering additional parameters.

- To search by **all**, leave the Date Type set at N/A and simply select the search button.
- To **narrow the search**, enter information into one or more of the available fields and select the search button.
- To search for shipments **within a specific export or arrival date range**, select from the Date Type drop-down, enter the start and end date, and select the search button.

Search Results

Shapiro 360 limits search results to 300 shipments. If the search will produce more than 300 shipments, it will return the first 300 and advise you to narrow the search. If you wish to view more than 300 shipments we recommend you use the Shipment Details Report which has no limit to the number of shipments extracted. You may access this via the Reports drop-down via the home screen.

All search results initially populate using system default settings however you can easily customize your preference by selecting the Change View button. Once customized the system defaults to your settings until you change them.

You can also export search results into an Excel document.
